Herts,
SGS SQW

17 December 2019 ,

Dear Sir or Ma dam,

Reference of previous work

We have worked with Urban Shopfitters on a number of occasions including the Oliver Bonas rollout and have always found them hardworking, diligent and professional.

One of the projects we have worked with Urban on is the re-design of a luxury travel agent, Carrier, in Cheshire's golden triangle. The Client was specific on time frames and quality y, leaving a tight program which Urban took in their stride. The fit out over 3 floors included complete internal reconfiguration including structural steel work, 2 new staircases, re-wiring, additional plumbing, new shopfront and signage, bespoke joinery, as well as high-end finishes. We have just come to the end of the year rectification period of this project and are still pleased with the work carried out by Urban.

Please also find attached a few project images for your reference, I hope you find this information helpful,

Many thanks,
